The screenshot shows a Slideshare presentation page. The presentation title is "What is hmi" by JustEngineering, dated Feb 4, 2021. A Scribd overlay is present, offering a "FREE 60-day trial" to access millions of documents, ebooks, audiobooks, and magazines. The overlay includes a "Read free for 60 days" button and a "Cancel anytime" link. The presentation content visible in the background includes the text "The Human Machine Interface (HMI) is the interface that operators and line supervisors use to coordinate..." and a "Read more" link.

HMI Centre of Excellence (CoE)

The HMI Centre of Excellence (CoE) is represented by a grid of six images illustrating its capabilities:

- UX/UI**: A diagram showing the user experience process, including Usability Testing, Interaction Design & Visual Design, Prototyping, and Design Transfer.
- HMI SOFTWARE DEVELOPMENT**: A 3D rendering of a futuristic vehicle interface with various icons and data displays.
- AUTOMATED HMI V&V**: A person driving a car, interacting with a large digital display on the dashboard.
- Industrial Design**: A person working on a large industrial machine, possibly a conveyor belt system.
- Human-Machine Interaction**: A diagram showing the interaction between a human and a machine, with various icons representing different types of interaction.
- Automated HMI V&V**: A person working on a large industrial machine, possibly a conveyor belt system.
